**RHYTHMLINK INTERNATIONAL COMPLETES
CLEAN ROOM IN MANUFACTURING FACILITY**

COLUMBIA, S.C. - June, 2007 - Rhythmink International, a company that designs, manufactures and distributes neurodiagnostic accessories and provides custom OEM and manufacturing solutions, has completed the construction of a clean room in its manufacturing plant in China.

Made possible by a partnership with Passagemaker China, this medical-grade production environment consists of over 1,700 square feet and is divided into three different areas: employee staging, material staging and the clean room core.

"This is a big step, not only for our manufacturing facility, but for the entire company," said Michael O'Leary, one of Rhythmink's owners.

The facility meets ISO class 8 standards and is maintained by a computer controlled air filtration system to manage temperature and humidity levels. All products manufactured in Rhythmink's clean room are cleared for marketing by the US FDA.

For more information about Rhythmink International, its products or services, visit Rhythmink.com or call 866.633.3754.
