**RHYTHMLINK INTERNATIONAL HOSTS
GRAND OPENING CELEBRATION**

COLUMBIA, S.C. - June 8, 2009 - Rhythmink International, a company that designs, manufactures and distributes neurodiagnostic accessories and provides custom OEM and manufacturing solutions, recently relocated its office to a brand new, larger facility and hosted a Grand Opening to celebrate the milestone.

The Grand Opening took place on June 6 from 4 to 8 p.m. with a ribbon cutting at 5 p.m. In addition to the ribbon cutting, a representative from the Columbia Chamber of Commerce was in attendance to present Rhythmink with its Chamber Membership Plaque.

"The Grand Opening was spectacular," said representatives from Rhythmink's new IT management company, Business Vitals. "The event demonstrated to the community that Rhythmink is proud of their employees and the quality product they develop."

Guests consisted mainly of family, friends and vendors, all of whom enjoyed a variety of appetizers and beverages while a live string band performed, and Rhythmink employees led group tours around the building.

"The party was fun," said David Dubberly of Nexsen Pruet, one of Rhythmink's longtime business partners. "We really appreciated the opportunity to see Rhythmink's beautiful new offices."

The new building, which is located in the Columbia Industrial Park, houses 15 offices, a kitchen, two conference rooms, an employee workroom, gym, engineering lab and warehouse totaling 20,000 square feet. Developed by Cohn Construction and designed in large part by Rhythmink's COO Michael O'Leary, the facility was built with growth in mind. Almost 2,000 square feet of the space was set aside for multi-use "flex" space which will eventually be filled with cubicles as more employees are brought on.
