**RHYTHMLINK INTERNATIONAL RELEASES
LONGER SUBDERMAL NEEDLES**

COLUMBIA, S.C. - August 17, 2009 - Rhythmink International, a company that designs, manufactures and distributes neurodiagnostic accessories and provides custom OEM solutions, has expanded its line of Subdermal Needles to include a longer version of its premier product.

Extended to 19 millimeters, Rhythmink's Longer Subdermal Needles are made from the same quality materials as Rhythmink's original Subdermal Needles, but have an added 6 millimeters of needle length.

"Our customers have been requesting longer needles for some time now," said Shawn Regan, one of Rhythmink's owners and CEO. "And since Rhythmink has promised to incorporate customer feedback into new product development whenever possible, we've added them to our catalog."

Rhythmink's Longer Subdermal Needle is available in 1.5 meter and six different leadwire colors. For more information about Rhythmink's Longer Subdermal Needles, other products or services, visit Rhythmink.com.
