

RhythmLink is committed to offering the best possible support and service to every customer. To show our commitment, we offer a range of pricing packages which outline our dedication and demonstrates our understanding of each medical specialty. We offer the following pricing packages: Non-Contract, One-Year Contract and Multi-Year Contracts.

- Our Non-Contract Packages offer a competitive price, based on volume, with our promise to deliver your products promptly and reliably.
- Our One-Year and Multi-Year Contracts are very different from other manufacturer's contracts. Our contracts are based on your estimated volume per year but we DO NOT require a minimum purchase quantity but instead we offer a very competitive price in exchange for your signed commitment to purchase your preferred product exclusively from RhythmLink for the length of the contract.
- Our contract packages also include our written No Back Order Policy* which outlines that if we cannot ship your entire order within 3 business days, we will ship your next order of equal or lesser value at no charge. We are the only vendor to offer such a commitment.
* For more details about our no back order policy, call 866.633.3754.

Interested in trying our FREE samples. Simply visit www.rhythmink.com or call 866.633.3754.
