FOR IMMEDIATE RELEASE

#### RHYTHMLINK INTERNATIONAL ANNOUNCES AN OWNERSHIP CHANGE

COLUMBIA, SOUTH CAROLINA, JANUARY 4, 2008. Effective December 31, 2007, RhythmLink purchased all the company interest held by Brett Netherton in a negotiated partner buyout that was both amicable and mutually beneficial.

RhythmLink started from humble origins in 2002 with partners Netherton, Shawn Regan and Michael O'Leary. Today, RhythmLink is a multi-million dollar leader in the neurodiagnostic accessory manufacturing industry.

'The RhythmLink Experience', principles upon which the company was founded, offers "the consistent delivery of peace of mind to the neurodiagnostic end-user by aggressively pursuing a fair price for products, flawless quality, consistent availability, continuous innovation and the highest level of customer service in the industry." This will continue to be the standard RhythmLink sets for its customers. Clinical end-users, distributors and OEM customers have appreciated products of uncompromising quality and service that is unmatched in its responsiveness. This reputation and commitment to technical excellence allows RhythmLink to maintain leadership in all of its markets.

Netherton is excited to explore professional and personal interests outside of RhythmLink. "We would like to publicly recognize all of the hard work, skill, experience and enthusiasm that Mr. Netherton shared with us," said Regan. "Likewise RhythmLink looks forward to the future and opportunity to aggressively grow and expand upon the already solid foundation and values of our company's business within the neurodiagnostic industry and beyond," said O'Leary.

To contact Brett Netherton, please use [brettn@rocworks.org](mailto:brettn@rocworks.org) or phone at 803.269.8096.

For additional information, please call Shawn Regan, [sregan@rhythmink.com](mailto:sregan@rhythmink.com) or Michael O'Leary, [moleary@rhythmink.com](mailto:moleary@rhythmink.com) at 866.633.3754.
